CHAPTER 11 Research Approach & Methodology

11.1 Report Description

The report covers a forecast and an analysis of the Japan Wine Market on a global and regional level as well as country level trends and market sizes. The study provides historical data from 2019 to 2035 along with projections from 2025 to 2035 based on revenue Value (USD Million). The study includes the drivers and restraints of the Japan Wine Market along with their impact on the demand over the forecast period. Additionally, the report includes the study of opportunities available in the Japan Wine Market. The report provides qualitative industry analysis further quantified by their impacts over the historical timeline as well as over the projected timeline. The study encompasses a market attractiveness analysis, wherein all the segments and regions are benchmarked based on their market size, growth rate, and general attractiveness for attractive investment pockets. In order to give the users of this report a comprehensive view of the Japan Wine Market, we have included a competitive landscape for the market. The report provides company market share analysis to give a broader overview of the key players in the market.

11.2 Research Scope

This report provides market size of Japan Wine Market for the past years and forecasts for the next years. The global Japan Wine Market size is given in terms of revenue value and volume. Market revenue is defined in USD Million. Market numbers are given on the basis of different segments. Market size and forecasts for each major segment is provided in the context of each region viz. North America, Europe, Asia Pacific, Latin America, and Middle East & Africa. The numbers and data provided in this report are derived on the basis of demand as well as supply for Japan Wine Market from different countries across the globe.

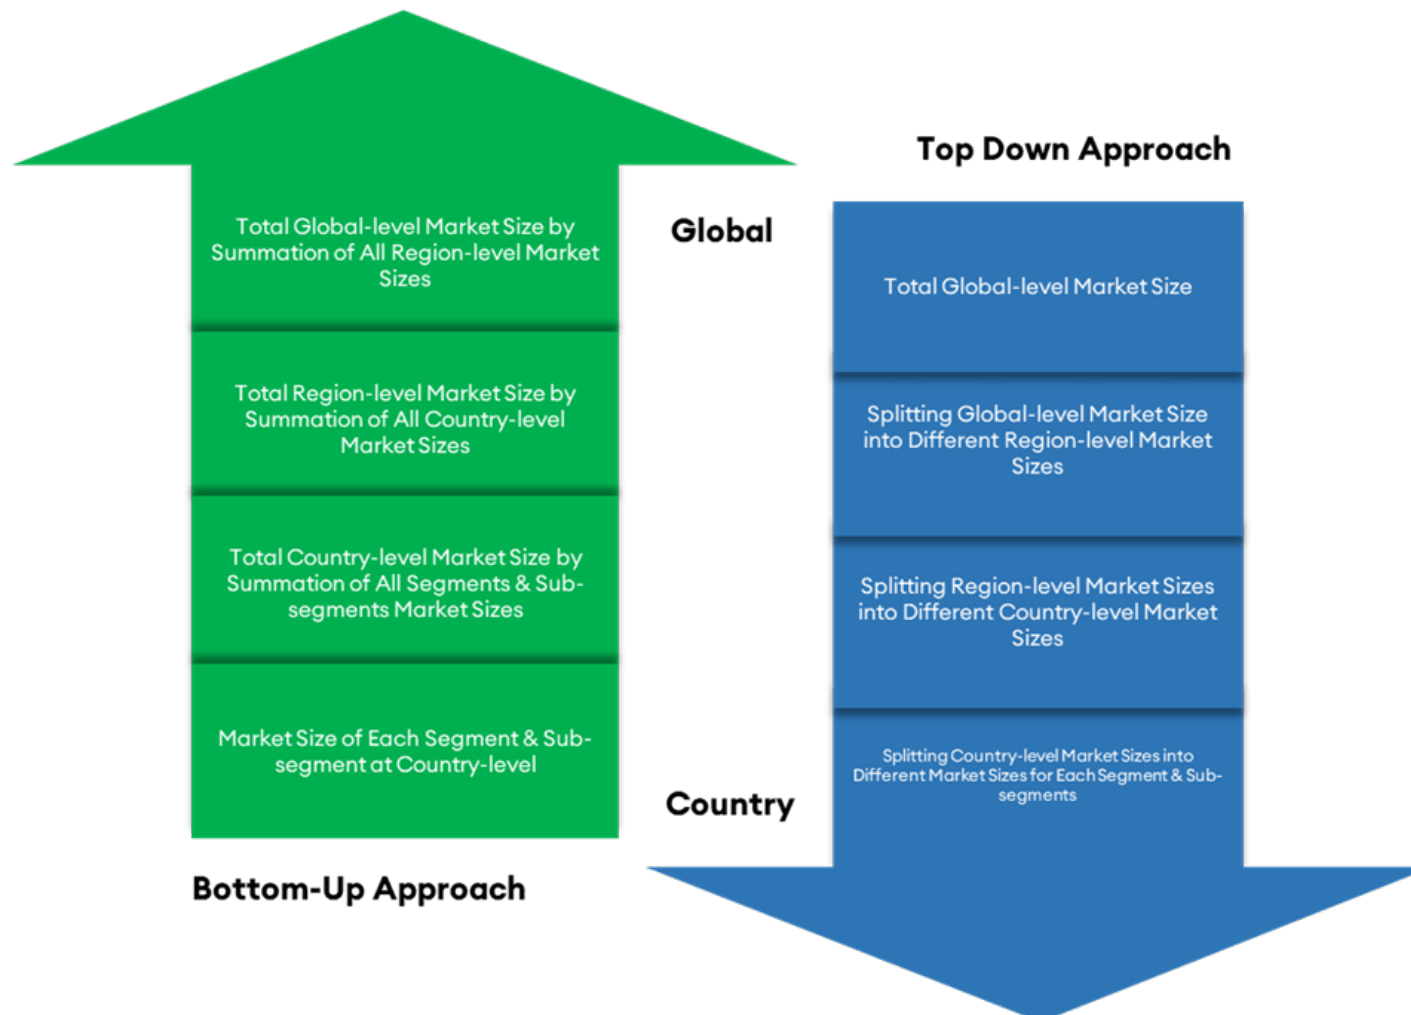

11.3 Research Methodology

11.3.1 Secondary Research

The secondary research products that are typically referred to include, but are not limited to:

- ☒ Company websites, annual reports, financial reports, broker reports, investor presentations and SEC filings
- ☒ Internal and external proprietary databases, relevant patent and regulatory databases
- ☒ National government documents, statistical databases and market reports
- ☒ News articles, press releases and web-casts specific to the companies operating in the market

FIGURE The products for secondary research include but are not limited to: Factiva, Hoovers, Statista

Source: Primary Interviews, Surveys, Secondary Sources, In-house & Paid External Databases, Spherical Insights, 2026.

11.3.2 Primary Research

We conduct primary interviews on an ongoing basis with industry participants and commentators in order to validate data and analysis. A typical research interview provides first-hand information on the market size, market trends, growth trends, competitive landscape, and future outlook; helps in validating and strengthening the secondary research findings; and further develops the analysis team's expertise and market understanding.

11.3.3 Statistical Models

Where no hard data is available, we use modeling and estimates in order to produce comprehensive data sets. A rigorous methodology is adopted in which the available hard data is cross referenced with demographic data, macro-economic indicators, and industry indicators. Data is then cross checked by the expert panel.

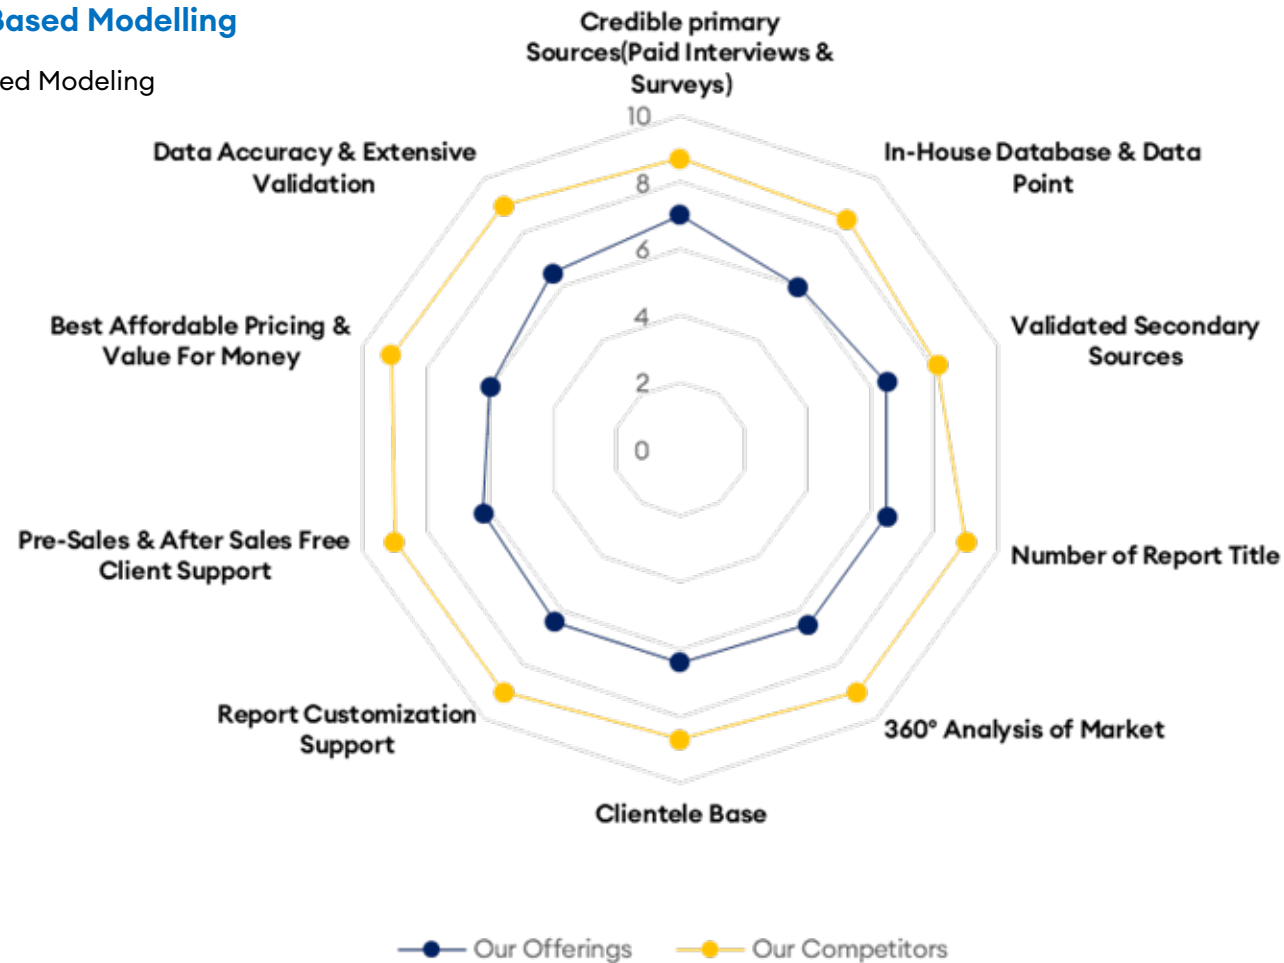

11.3.3.1 Company Share Analysis Model

Company share analysis is used to derive the size of global market. Study of revenues of companies for last three to five years also provide the base for forecasting the market size and its growth rate.
